Moaz Alnageeb – TA Duties

To whom it may concern: I can confirm that Moaz Alnageeb has undertaken the following Teaching Assistant (TA) Duties:

- Module CO1104 Computer Architecture. Peer Assisted Learning in 22/23 and 23/24. Assisting first year students in their coursework preparation, as part of a team of TAs. Learners would raise their hands and seek individual help.
- Open Days. Meeting with prospective degree applicants and advising them about Computing Courses, as part of a visit to a Computer Laboratory.

Kind regards
