Reference for Moaz Alnageeb
Employment: Aug 2023 – current

To whom it may concern

I am writing a professional reference in relation to Moaz. Moaz has worked with the Peer Mentoring Team for the last twelve months and has been a fantastic asset to the team.

Moaz is hardworking and continually shows his excellent communication skills in ensuring he is always reliable and responsive to any information and mailing from the team. During his time, he has performed a numerous number of tasks. The role of the Lead Mentor is to help the facilitation of the scheme, he has aided the recruitment of mentors to a high level.

Moaz shows maturity and professionalism to his approach to work, this is reflected in his excellent time management and organisational skills. He is able to rely information and services to relevant communication channels to ensure the recruitment of mentors is efficient.

Another excellent quality Moaz has is receiving feedback. Moaz is able to adapt this into his work and show the areas in which he has worked on, for example on days when the footfall of students was high, Moaz used this opportunity to engage with as many potential mentors as possible. Moaz has showed his confidence and charisma when delivering presentations in front of other students, this was created independently and then delivered in a large lecture theater. We host a meet and greet between Mentors and Mentee's, this required excellent welcoming and communication skills. Moaz was able to show hosting and facilitation of this event and any hick ups he was able to iron these out by his decision-making skills. He has shown his flare when hosting his own Ted talk, with the designing and then delivering this to students. He also has shown his creative side by creating professional social media content for the team.

We recently held an opportunities fair, Moaz was on the front table representing the Peer Mentoring scheme. This required high levels of understanding on how the scheme works, alongside signposting to relevant services. Moaz remained professional and helpful to others. He showed his Customer Service skills during this time as many students would be approaching the table to find out more about the scheme and why/how Peer Mentoring would help others develop their skills.

Moaz is able to look at a situation objectively and instinctively make a discission. He shows his work and studying is organised and carefully planned, this is through his time management skills and organisational skills. Moaz would be an asset to any team in the future.

Kind regards
Aysha Jogi (Peer Mentoring and Training Co-Ordinator) and Ian Bruce (Voice manager)
